Scrapers that make the Earth move!

WWW.IMCSCRAPERS.COM

Carry All Fixed Blade

The FB Series Scraper is great for farming operations such and chicken pads or road maintenance.

Every component and assembly is rated **Heavy Duty** and can be easily serviced for maintenance purposes. The cutting edge is fully visible from the cab of the tractor which gives the operator greater control over the equipment. There are double thick router bits with an extra set of rear router bits for extreme stability while making your cut. Reinforced cross members, walls, and floors give the FB 7.5 the ability to work with larger dirt loads and horse powered tractors.

Scrapers that make the Earth move!

WWW.IMCSCRAPERS.COM

Applications: Small Road Maintenance, Farming Operations, Pad Maintenance & Site Development

Features: Fixed Blade Assembly, Heavy Duty Yoke Assembly, Independent Hubs for longer life, Reinforced Cross Members make the scraper capable of hauling heavier loads, 10" Reversible Blade maintains constant grade.

Independently mounted hubs give the operator easy access to service and repair on the 7.5 CFB.

Heavy duty components on the 7.5 CFB give the operator added insurance to perform operations with heavier loads and higher horse powered tractors.

Model	Capacity (yds ³)	Cutting Width (inch)	Tires	Weight (lbs) est.	Tractor HP req'd
6 CFB	6	84	12.5 x 16 Ribbed Imp.	5,500	100+
8 CFB	8	84	12.5 x 16 Ribbed Imp.	6,000	100+
